

HELP FOR OPTIONAL WEB PAGES

PURPOSE: The Optional Web Pages Tabs are used to display user defined web pages. These are here so favorite pages can be set to display quickly and easily.

When to Use the Optional Web Pages

To load your favorite web sites every time you start the App

Your favorite sites are pre-loaded, it just makes getting to them easier.

How to Use the Optional Web Pages

Define the URL

The URL's (addresses) for the Optional Web Pages are defined on the Options page. Both the URL and the reference name of the page are defined on the Options page.

Go to the Options page and enter the address of the web site. You will then be able to go directly to that web site using the button on the Main Menu.
